

PAPER TIGERS

One high school's unlikely success story.

Click [here](#) to watch the Paper Tigers trailer.

*Don't miss this critically-acclaimed documentary from Director James Redford and Executive Producer Karen Pritzker: Paper Tigers follows a year in the life of an alternative high school in Walla Walla, WA, that used the science and framework of **adverse childhood experiences, or ACEs**, to radically change its approach to student relationships and discipline, and in the process has become a promising model for how to break the cycles of poverty, violence and disease that affect families.*

Join us for four free screenings of the film. Events are open to all and will include panel discussions on more targeted issues for different audiences.
